Please note: The details in this plan are subject to change as directives are provided by governing authorities and/or health officials or as public health conditions change. Check back for updated, accurate information.

A LETTER FROM OUR LEADERSHIP TEAM

Palestine ISD continues to follow guidelines from the Texas Education Agency (TEA) and the Centers for Disease Control for the start of the 2021-2022 school year. Preparing and leading a school start for 2021-2022 requires Palestine ISD faculty and staff to establish plans to mitigate the spread of COVID-19 and provide the best in-person instruction for Palestine ISD students.

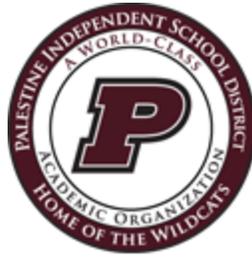

The Palestine ISD Return to In-Person Instruction and Continuity of Services Plan for 2021-2022 has been developed based on the Texas Education Agency and the Centers for Disease Control information as of July 17, 2021, and is subject to change as public health guidelines and further information from the Texas Education Agency is released. As a result, we will modify our plan in response to new updates prior to the first day of school scheduled for Thursday, August 12, 2021. Our curriculum and instruction team along with campus leaders have developed curriculum documents/plans to best serve and accommodate in person instruction for the academic year. Each campus also has a COVID-19 Response Team, consisting of campus administrators, district administrators, staff and the campus nurse. You may contact them with any questions.

Instructional Plan for 2021-2022

All instruction will be face to face in a classroom setting. Remote instruction is not an option for students but the district may require remote instruction in the case of Intermittent Closures.

Most importantly, Palestine ISD's Return to In-Person Instruction and Continuity of Services Plan for 2021-2022 will require all of us to do all we can to mitigate the spread of COVID-19 and be flexible as we provide teaching and learning for our Palestine ISD students. We sincerely want to thank our Palestine ISD leadership and educators who have worked so hard together to develop a great plan for the 2021-2022 school year.

WHAT FAMILIES CAN EXPECT WHEN SCHOOLS REOPEN

As we move towards the 2021-2022 school year, we will all need to work together as a Palestine ISD community of staff, students, and parents doing our best to mitigate the spread of COVID-19.

The mission of Palestine Independent School District is to foster relationships that Excite, Engage and Empower our students and community to achieve Excellence. The mission will continue as we facilitate In-Person and Remote Instruction for Palestine ISD students and families.

Like you and your family, our district leadership will continue to monitor and navigate circumstances that change while keeping the well-being of our students, staff, and families of Palestine ISD in mind. As this situation continues to evolve, we will communicate with you to provide concise information based on the most current guidance from our local, state, and federal authorities. On behalf of Palestine ISD educators, we are committed to your child's learning during this challenging time.

2021-2022: Highlights of School Year Protocols

- Face coverings are optional, not required.
- In-person learning will be the only option available for PISD students and staff. PISD will provide Remote learning during Intermittent Closures of a classroom, grade level, campus, or district.
- Visitors will be allowed on campus but must check in at the office and follow procedures/protocols.
- PISD will continue to disinfect classrooms, buildings, and buses throughout the day.
- PISD will encourage social distancing when possible.
- Each campus will encourage frequent hand washing.
- PISD will provide and encourage the use of hand sanitizer
- PISD will proceed with field trips and campus-based activities.
- Confirmed COVID-19 cases will be reported to the required entities per TEA guidelines

INSTRUCTION

In-Person Instruction

Palestine ISD schools will open for the first day of instruction on Thursday, August 12, 2021, and provide in-person (on-campus) instruction. The only option for Remote learning is during Intermittent Closures of a classroom, grade level, campus, or district. Additional safety protocols and social distancing will be implemented as recommended per TEA for at-school learning.

Instruction During Intermittent Closures Palestine ISD is developing a contingency plan in anticipation of Intermittent Closures. Intermittent Closures are temporary physical closures of a classroom, grade level, campus, or district. These closures may occur for both students and staff based on public health authority recommendations. Currently, Palestine ISD awaits guidelines and criteria for implementing an Intermittent Closure from TEA and the Department of State Health Services. In such a case, teaching and learning would move to a remote (at-home) learning model for the duration of the temporary closure before reopening for in-person classes. For students attending in-person instruction, remote instruction will be the model during all potential Intermittent Closures. All students in grades K- 12 will receive a student device. If connectivity is needed, hot spots and or 3G devices will also be available. For students who do not have a device issued by PISD, they will be assigned to students during the first two weeks of school. All required forms must be completed and submitted before devices will be issued to students.

In order to take attendance in the asynchronous model for Intermittent Closure, teachers should check daily for student “engagement”. If students are engaged for the day, they would be marked as present. Staff may also determine “engagement” by student progress in the student’s Seesaw or Canvas account, the turn in of assignment(s) that day, or progress from teacher/student interactions made that day. Students are expected to be in attendance at least 90% of the time in order to receive credit or be promoted. As a note, TEA has notified all districts that PreK-12th grade students are eligible to earn school funding through the asynchronous model.

School grading guidelines for remote students during intermittent closures will be consistent with those used before COVID-19, and for on campus assignments. Students in both settings will follow the same policies and procedures for grading assignments, including late work. All GPA policies will be in effect.

Palestine ISD will provide students from K to 6th Grade with iPads and 7th - 12th grade with laptops. Online learning platforms will include Canvas, Seesaw, Dreambox, Lexia Core 5, Lexia Power Up, ST Math, Brainpop and digital textbooks.

In-Person and Remote Instruction(Due to Intermittent Closures) Highlights

Grade Level	Instructional Option	Highlights and Expectations
PreK-Grade 12	In-Person Instruction	<ul style="list-style-type: none"> • In-person instruction is traditional learning at school. • Requires safety procedures and implementation of social distancing per TEA public health guidance. • Face-to-face applies to all PreK-12th grade students • Teachers will take attendance daily on a designated schedule by course and absences will be documented. Students are required to attend at least 90% of their classes to receive credit and be promoted. • Students will commit to physically attending all classes as outlined in their schedule and actively participating in learning activities. • Grading and GPA policies will be in effect, including policies for late work. • All students are expected to adhere to the Student Code of Conduct and the Acceptable Use Policy. • Students enrolled in this learning model will be expected to participate in district/state assessments to document student learning and growth.
PreK-Grade 12	Remote Learning Due to Intermittent Closures (Asynchronous Instruction)	<ul style="list-style-type: none"> • Remote Instruction will be a parent choice learning option. • This option may be used as a result of Intermittent Closures due to COVID-19. • Teachers will take attendance daily on a designated schedule by course and absences will be documented. Students are required to attend at least 90% of their classes to receive credit and be promoted. • Grading and GPA policies will be in effect, including policies for late work. • All students are expected to adhere to the Student Code of Conduct and Acceptable Use Policy. • Students enrolled in this learning model will be expected to participate in district/state assessments to document student learning and growth.

Special Programs: Section 504, Dyslexia, Special Education,

Bilingual/ESL, and Gifted Talented Instructional Services

All services for Special Programs: Section 504, Dyslexia, Special Education, Bilingual/ESL, and Gifted Talented Instructional Services, will continue during in-person (on-campus) instruction and remote for Intermittent Closures. All Special Programs staff will receive training in the district's COVID-19 safety protocols as well as virtual methods of service delivery. All remote instruction will be provided through the appropriate district approved online platform, Frog Street (PK), Seesaw (K-6) and Canvas (7-12). The district will provide iPads or laptops for all students attending PISD. The district will also provide access to manipulatives, charts/graphs, hands-on materials, and online tools.

Common learning programs utilized during in-person (on-campus) learning and remote (at home) instruction include Unique Learning System, News2you, L3 skills, Lexia Core 5, Lexia Power Up, ST Math, Dreambox, myOn, BrainPopELL and other classroom learning programs provided by the district. Parent video training sessions on how to access the specialized programs will occur early in the school year. Should an Intermittent Closure occur prior to the start of school, parent video training sessions will be provided via preferred district platforms, such as Canvas or Seesaw. Parent training with therapists (related services, dyslexia teachers) regarding strategies and techniques will occur early in the school year. Video training sessions will be provided via preferred district platforms, such as Canvas, Seesaw and/or a video conferencing software tool if not possible in person.

Section 504 and Special Education Students will continue to receive access to all general education instruction as determined in the 504 Plan (IAP) or the IEP (ARD). Access to general education classes will be provided through accommodations and modification of the curriculum by the general education teacher, special education teacher and staff. Students requiring social skills instruction will continue to receive specially designed instruction by the special education teacher and staff. Students requiring an alternate curriculum will continue to receive specially designed instruction by the special education teacher and staff. Students requiring therapies or other related services will continue to be served by the appropriate service provider.

- During in-person (on-campus) learning, additional protective wear and protocols may be required for classrooms serving students requiring a high level of adult supervision due to significant communication or comprehension deficits.
- Related and/or other services (speech therapy, occupational therapy, physical therapy, direct psychological services, deaf/hearing impairment services and/or vision services) will be provided during in-person (on-campus) learning. During remote learning due to Intermittent Closures, services may be provided via teletherapy.
- Some related and/or other services such as vision, orientation and mobility and adapted physical education may be provided via consultation and not as a direct service.
- All students who receive mainstream instruction, will be assessed using the following assessments based upon grade level and program (Lexia Power 5, Lexia Power Up, STAAR release tests, CBAs, semester exams, standards based tests, TX-KEA, TPRI/Tejas Lee, Circle, TELPAS, LAS, and dyslexia screeners) with their individualized accommodations/modifications being implemented by the teacher

administering the assessment.

- Students who receive resource instruction will be assessed utilizing tools such as curriculum based tests, Brigance, iStation, STAAR release tests, CBAs, semester exams, and standards based tests.
- During remote learning due to Intermittent Closures, student 504 plans will be reviewed and IAP amendments may be necessary to address the home setting. Also student IEPs will be reviewed and IEP amendments may be necessary to address the home setting.
- Student progress will be addressed by the 504 Committee or the ARD Committee. The 504 Committee or the ARD Committee will be responsible for determining student regression and the need for compensatory services.

Dyslexia Students will continue to receive Dyslexia services provided by trained teachers using the standard protocols from the district program. When participating in remote learning due to Intermittent Closures, students will receive Dyslexia services through ZOOM or Google Meet. During in-person (on-campus) learning, Dyslexia services will be provided in a face-to-face, small group setting as prescribed by the district program.

- State mandated screeners for Dyslexia will be administered to students in grades K-2 according to guidelines provided.
- Students may be required to be in a face-to-face setting in order to complete the assessment.
- All appropriate strategies and accommodations will be provided whether instruction is remote or in-person, including testing accommodations.
- Progress will be monitored by the Dyslexia teacher, classroom teachers and the appropriate committee.
- Parents will be regularly informed of student progress.

Bilingual/ESL Students will continue to receive Bilingual/ESL services by appropriately trained/certified teachers in both the in-person (on-campus) setting and the remote setting during Intermittent Closures. When remote, Bilingual/ESL students will receive instruction through either Seesaw or Canvas, depending on their grade level. During in-person (on-campus) instruction, students will be placed in classrooms according to the district Bilingual/ESL delivery plan.

- As part of the requirements, based upon the Home Language Survey, students will continue to take the LAS to determine program placement.
- Whether remote or in-person, Bilingual/ESL students will be required to participate in TELPAS.
- Students may be required to be in a face-to-face setting for the TELPAS and other standardized assessments.
- All classroom accommodations and strategies will be provided, as determined by the Language Proficiency Assessment Committee (LPAC), including any testing accommodations.
- LPAC meetings, either face-to-face or by ZOOM/Google Meets, will be scheduled in accordance with TEA requirements and district timelines.

Gifted Talented Gifted Talented students will be provided services by appropriately trained teachers in both the in-person (on-campus) setting and the remote setting during Intermittent Closures. GT students will continue to

be served in LAUNCH (grades K-5) and Honors Classes (grades 6-12) whether in-person or remote during Intermittent Closures. Talented teachers will use strategies to deliver content that is differentiated through the elements of depth, complexity, and pacing.

- The district will continue to provide testing for identification using the district assessments according to the district timeline.
- Students may be required to be in a face-to-face setting when testing for identification purposes. Gifted

Progress Monitoring will continue for all students:

All students receiving Dyslexia, Bilingual/ESL, and Gifted Talented services will be assessed using the following assessments based upon grade level and program (iStation, STAAR release tests, CBAs, semester exams, standards based tests, TX-KEA, TPRI/Tejas Lee, Circle, TELPAS, LAS, and dyslexia screeners) with their individualized accommodations/modifications being implemented by the teacher administering the assessment. Progress will be monitored by classroom teachers and the appropriate committee. Parents will be regularly informed of student progress.

STAFF & STUDENT HEALTH

Screening the Health of Students at Home Before Going to School

Palestine ISD will follow these guidelines as provided by the Texas Education Agency:

- It is important to remember that schools are required to exclude students with certain illness from school for periods of time according to state rules. Please do not send your child to school if they have a fever (measured temperature of 100.0°F) or higher, diarrhea, or symptoms of a contagious illness.
- Parents must ensure they do not send a child to school if the child has COVID-19 symptoms or is lab-confirmed with COVID-19. Students will receive remote instruction until the specified conditions for re-entry are met.
- Students will receive remote instruction if they had direct exposure with an individual who is lab-confirmed with COVID-19 until the 10-day quarantine period has passed.
- Students and/or parents are required to report to their school nurse, BEFORE arriving at school, if:
 - they had close contact with an individual who has tested COVID-19 positive, or
 - if they themselves have any symptoms of COVID-19.

Please watch for COVID-19 symptoms. People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

- Fever measured temperature of 100.0 degrees Fahrenheit or higher when taken by mouth
- Loss of Taste or smell
- Cough
- Difficulty Breathing
- Shortness of breath
- Fatigue
- Headache
- Chills
- Congestion or runny nose
- Sore Throat;
- Shaking or exaggerated shivering
- Significant muscle pain or ache
- Diarrhea
- Nausea or vomiting

IF YOUR CHILD HAS ANY OF THE SYMPTOMS LISTED ABOVE, PLEASE KEEP YOUR CHILD AT HOME AND CONTACT YOUR SCHOOL NURSE FOR EXCLUSION AND READMISSION CRITERIA.

Screening the Health of Staff at Home Before Going to School

Palestine ISD will follow these guidelines as provided by the Texas Education Agency:

- Teachers and staff are required to self-screen daily for COVID-19 symptoms before coming onto campus.
- If teachers and staff experience the following, they are to notify their supervisor and school nurse BEFORE arriving at school, if:
 - they have had close contact with an individual who has tested COVID-19 positive, or
 - if they themselves have any symptoms of COVID-19.

Please watch for COVID-19 symptoms. People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

- Temperature of 100.0 degrees Fahrenheit or higher when taken by mouth
 - Fever (measured temperature of 100.0 degrees Fahrenheit or higher when taken by mouth)
 - Loss of Taste or smell
 - Cough
 - Difficulty Breathing
 - Shortness of breath
 - Fatigue
 - Headache
 - Chills
 - Congestion or runny nose
 - Sore Throat;
 - Shaking or exaggerated shivering
 - Significant muscle pain or ache
 - Diarrhea
 - Nausea or vomiting

IF A TEACHER OR STAFF MEMBER HAS ANY OF THE SYMPTOMS LISTED ABOVE THEY MUST REMAIN OFF CAMPUS, AND NOTIFY THEIR SUPERVISOR AND THE HUMAN RESOURCES DEPARTMENT FOR EXCLUSION AND READMISSION CRITERIA.

Individual Confirmed or Suspected with COVID-19

In the case of an individual who was diagnosed with COVID-19, such individual may return to school when all three of the following criteria are met:

1. At least one day (24 hours) has passed since recovery (resolution of fever without the use of fever-reducing medications).
2. The individual has improvement in symptoms (e.g., cough, shortness of breath); and
3. At least 10 days have passed since symptoms first appeared.

In the case of an individual who has symptoms that could be COVID-19 related and who has not been evaluated by a medical professional or tested for COVID-19, the individual is assumed to have COVID-19, and the individual may not return to campus until the individual has met the listed three criteria above.

Notification Requirement to Teachers, Staff, and Families of Students in School Campuses must notify all teachers, staff, and families of all students in a school if a lab-confirmed COVID-19 case is identified among students, teachers, or staff.

Student Arrival at School, Transition From One Class to Another Class, and Departure From School

- Palestine ISD's Board of Trustees held on a meeting on April 19, 2021 at 6:00 p.m. to approve revisions to TEA'S Health Guidance making face coverings optional at Palestine ISD, effective at the end of the school day on April 30, 2021
- Pursuant to powers as Governor of the State of Texas, Gregg Abbott has issued the following: Executive Order No. GA-36-No governmental entity, including a county, city, school district, and public health authority, and no governmental official may require any person to wear a face covering or to mandate that another person wear a face covering. Face coverings are optional
- Campus entry, exit, and transition procedures will be communicated by each campus and will take into consideration individual facility design. Depending on the facility design, students may be assigned specific entry locations to ensure even distribution of students.
- Any student who exhibits symptoms upon entering the building, will be escorted by a campus staff member to the designated quarantine area where there will be further assessment to include temperature and symptoms assessments. A parent will be contacted to pick up their child within 30 minutes.
- Assigned staff will monitor students to discourage congregating.

Visitor Procedures

- Visitors will be allowed on campus but will be expected to self-screen prior to entering each building. Visitors will check in at the office and follow campus procedures.
- If visitors have COVID-19 symptoms, or are lab confirmed with COVID-19, they must remain off campus until they meet the criteria for re-entry.
- Any visitor who has had close contact must remain off campus until the incubation period has expired

Social/Emotional Student Supports

PISD counselors are available to support students academically, socially and emotionally. Counselors are prepared and ready to provide mental health support and resources for families who may be struggling emotionally. In addition to helping provide individual and group counseling, the Guidance and Counseling Department also provides behavioral health and wellness-based classroom guidance for all students. These lessons include the following:

- Orientation to the Counseling Program
- Bullying/Cyberbullying Prevention/Harassment
- Violence Prevention/Conflict Resolution
- College, Career, Military Readiness (CCMR)
- Suicide Prevention/Mental Health Safety
- Drug Education Prevention

Social Emotional Learning lessons are offered to PISD students to develop important skills such as self-awareness, self-management, social awareness, relationship skills and responsible decision-making.

OPERATIONAL SAFETY

Bus Transportation Services and Bus Safety Protocols

Transportation Staff

- All Transportation Department staff will be trained in COVID-19 safety protocols and subject to health pre-screening as will Palestine ISD employees.
- All Transportation Department staff will be given the option to wear face coverings and gloves

Student Safety

- Any student who exhibits symptoms upon entering the bus will be directed to sit in designated seats on the first two rows. Upon arrival at their campus, a staff member will greet the bus and escort the child to the designated quarantine area.
- Hand sanitizer dispensers will be provided/mounted near the entry of every bus.
- Students will be encouraged to sanitize hands at the beginning and end of each bus ride
- Buses will be disinfected by either wiping down or electrostatic spraying with an EPA- approved disinfectant in between both the morning and afternoon services as well as the end of each day. Disinfecting would be focused on high-touch surfaces such as bus seats, steering wheels, knobs, and door handles (TEA guidance).
- As students depart from the bus, they will immediately go to their designated area.
- The District's current plan is to continue providing shuttle services for academic, athletic and career and technical education programs.
- Procedures and guidelines are subject to change per TEA Health Guidance.

Parent

- If possible, assist at bus stops with child supervision
Assigned staff will supervise student arrival and dismissal.
- During dismissal, teachers/staff will supervise designated pre-loading areas for students waiting for the bus, waiting on parents, and driving personal vehicles.

Campus / Building Safety Modifications

- Floor markings every six feet, where feasible, will be installed in all primary and secondary corridors of Palestine ISD school facilities as a physical guide for students, visitors and staff to indicate safe distancing.
- Social distancing signs will be installed throughout Palestine ISD school facilities in an effort to remind students, visitors and staff about appropriate safety measures that prove effective in helping reduce the spread of COVID-19. These safety measures were derived from guidance provided by TEA and CDC.
- Additional hand sanitizing dispensers will be installed throughout Palestine ISD facilities.

- Traditional water fountains will be deactivated, where able. Water fountains will either be covered or have a notification of “Out of Service.” Water bottle filling stations will remain operational in schools that are equipped with them as they are “non-contact.”

Daily Safety Precautions

While it is not possible to eliminate all risk to stop the spread of COVID-19, the current science suggests there are many steps schools can take to reduce the risks for students, teachers, staff, and their families significantly, including but not limited to:

- Students and teachers will be encouraged to sanitize and or wash hands (20 seconds) frequently especially after they have touched something another person has touched.
- Hand sanitizer will be available at the main entry to the campus, in classrooms, in the cafeteria and in common areas throughout the campus.
- Provide hand sanitizer upon entry to classroom and periodic reminders during instructional day.
- Each classroom will be provided with a poster for instructional purposes to teach and/or review proper handwashing procedures. Additional preventative information will include covering your cough or sneeze, avoid touching your face and maintaining physical distance when possible.
- Pursuant to powers as Governor of the State of Texas, Gregg Abbott has issued the following: Executive Order No. GA-36-No governmental entity, including a county, city, school district, and public health authority, and no governmental official may require any person to wear a face covering or to mandate that another person wear a face covering. Face coverings are optional.
- Schools will create procedures to limit the sharing of supplies between students.
- Staff will limit the use of shared supplies when possible.

Cleaning & Disinfecting

New Procedures & Best Practices

Palestine ISD, in collaboration with McLemore, has established procedures in accordance with industry “best practices” necessary to provide the high level of cleanliness expected for Palestine ISD facilities. As recommended in the TEA publication, SY 21-22 Public Health Planning Guide, the District’s cleaning program conforms to the Guidance for Cleaning and Disinfecting - Public Spaces, Workplaces, Businesses, Schools and Homes as provided by the Centers for Disease Control and Prevention (CDC).

Staff Training

- All McLemore staff will be trained in COVID-19 safety protocols and subject to health prescreening like all Palestine ISD employees.
- All McLemore staff will be required to wear gloves, face covering is optional.
- The district's custodial program also includes a comprehensive employee training plan that incorporates the proper use of EPA-approved disinfecting products and the implementation of procedures required to meet both the District's routine cleaning specifications as well as CDC's recommended guidance on cleaning and disinfecting.

Routine Cleaning & Disinfecting

Cleaning and disinfecting will occur nightly in every classroom, common areas and on high-touch surfaces, including but not limited to:

- All touchable surfaces to be wiped down with a towel and an EPA-approved disinfectant.
- All occupied spaces shall be further disinfected utilizing an electrostatic disinfectant spray application to address all surfaces both horizontal and vertical and all material types that are not easily disinfected by wiping down with a towel.
- All cleaning products utilized in the district have been reviewed and approved as safe for our students, employees, and environment.
- Examples of horizontal touchable surfaces and other vertical materials include, but are not limited to, tables, doorknobs, light switches, countertops, handles, desks, chairs, phones, keyboards, touch screens, interactive white boards, chalk trays, faucets, toilets, and sinks.

Deep Cleaning

Should it be required, the district's custodial program also includes best practices for "deep cleaning" and the disinfecting of horizontal surfaces and other vertical surfaces in spaces such as classrooms, cafeterias, libraries, corridors, restrooms, athletic areas, administrative areas, flooring and furnishings.

The School Nurse's Office and Campus Administrative Office

- Palestine ISD nurses and substitute nurses will be trained in COVID-19 safety protocols.
- Nurses' offices will be provided personal protective equipment to safely care for students.
- Attendance clerks will be trained to ask questions to screen students/staff who are absent due to COVID-19 symptoms.
- Students who come to the school health clinic showing symptoms will be isolated from their peers until their parent(s) arrive to take them home.
- In the event that a student or staff member tests positive for COVID-19, the campus COVID Response team will follow procedures to track individual points of contact. This tracking will include but not be limited to; transportation to and from school, classroom assignments and schedules and areas the child

visited throughout the campus.

- The school nurse's office and the campus administrative office will be cleaned and disinfected regularly.
- Procedures will be in place to prevent exposure in the school health clinic for students who need to visit the campus nurse for non-illness care such as an injury or a scheduled medication.

What To Expect While On Campus and In The Classroom

The Texas Education Agency requires all public schools to provide instruction for students face-to-face in person five days a week. In order to facilitate a safe, effective back-to-school transition process, during a period up to the first four weeks of school, which can be extended by an additional four weeks by vote of the school board, school systems may temporarily limit access to on-campus instruction. While it is not possible to eliminate all risk of furthering the spread of COVID-19, there are many steps schools may take to reduce the risks to students, teachers, staff, and their families. Campuses will implement some or all of the following strategies to help limit the spread of the virus.

- Modified drop-off and pick-up areas and procedures to reduce large group gatherings in close proximity and even distribution of students.
- Limit visitors and volunteers on campus. Limited visitors and volunteers must answer COVID-19 screening questions to determine if the visitors have any COVID-19 symptoms or have been in close contact with an individual who is confirmed COVID-19.
- Keep students in small group settings.
- Space desks further apart.
- Modify lunch procedures such as eating lunch at the student's desk or social distancing seating in cafeterias.
- Limit and stagger lunch times, recess, and other transition times.
- Students who appear ill or unwell will be sent to see the school nurse who will assess the student for illness and contact the parent to pick up their child. Students with symptoms of illness will be isolated from their peers until the parent arrives to pick them up. Parents should pick up their child within 30 minutes of being contacted.

Child Nutrition and Lunch Time Safety

Meal Offerings

- It is anticipated that meal options will still be provided but limited depending on grade level.
- To minimize frequent touchpoints, “grab-and-go” style meals will be the predominant serving method.

Students

- Students will enter serving lines with social distancing measures in place. Measures would include, social distancing signs, floor markings, and additional plastic barriers installed at the serving lines.
- Once receiving their meal, students will then be directed to the school-designated eating area[s] within the campus to ensure social distancing guidelines are maintained. The school-designated eating areas would be campus specific based on a number of factors, including but not limited to, availability of rooms, supervision, and number of students.

Child Nutrition Staff

- All Child Nutrition Department staff will be trained in COVID-19 safety protocols and subject to health prescreening like all PISD employees.
- All Child Nutrition Department staff will be required to wear gloves.
- Additional plastic barriers will be installed near cashier stations to minimize close physical proximity to students

Meal Service for Intermittent Closures

If a school campus or the entire district experiences an Intermittent Closure, it is expected that the meal service for remote learners will be implemented for all enrolled in-person students during the Intermittent Closure.

Remote learner serving times could be adjusted to better serve the community upon an Intermittent Closure.

PROGRAMS

Supporting Our Students' Social-Emotional Well-Being

The impact of a global COVID-19 pandemic can have a social and emotional impact on our students. Palestine ISD staff are committed to supporting the social-emotional well-being of each student as it relates to relationship building, transitioning back to school, in-person instruction, and remote instruction due to Intermittent Closures. Palestine ISD staff will participate in professional learning that prepares us all to support one another during our reopening of schools. Counselors, nurses, and student services staff may be contacted via the PISD webpage, www.palestineschools.org, to receive guidance in areas that address:

- Academic and career advising
- Counseling and supportive guidance
- Solutions-focused problem-solving interventions
- Information, referral and connection to community resources
- Best practice-based academic or social, emotional, behavioral or mental and behavioral health skill-building lessons or targeted groups
- Consultation with educators
- Counseling services may also be provided under a student's individualized education program (IEP) through counseling as a related service

Managing Courses and Activities That Require Students to Congregate Will Be Limited

Ensuring the health and safety of our students and staff will impact some courses and activities. Some courses may modify procedures to reduce the risk of virus spreading. Courses and or activities that may require modifications to procedures may include band, choir, theater, dance, PE, and other UIL activities. Each campus will partner with each family to ensure student accommodations and or alternative options for course participation if any. Large gatherings such as assemblies, pep rallies, field trips (consider virtual field trips), and/or dances are currently not approved.

Extracurricular Activities

Athletics

- Athletic practices and contests will be conducted following all safety protocols provided by guidance from UIL and Palestine ISD. This will include sharing and sanitizing of equipment, locker room usage, laundry, etc.
- Hand sanitizing stations will be in athletic areas and hand washing will be emphasized before, during, and after activities. Equipment will be sanitized on a regular basis.
- Cleaning and sanitation of all athletic facilities will occur routinely.
- Locker room use will be determined by PISD. If locker rooms can be accessed, all locker room space will be utilized according to the guidelines.
- Bus travel to competitions will follow transportation guidelines provided by the TEA, UIL and Palestine ISD.
- Fan attendance and crowd sizes at games and contests will be in accordance with UIL guidelines.
- All students who participate in athletics will be required to meet UIL requirements, be enrolled and attend the athletic class and after school practices in person. All students must attend classes in-person/on campus to be eligible for extracurricular activities.

Fine Arts, Band, Cheer, Choir, Dance, Drill Team, Music, Theater

- All students who participate in Fine Arts, Band, Cheer, Choir, Dance, Drill Team, Music, and Theater must attend classes in-person (on-campus). Palestine ISD values all students who are enrolled in fine arts courses and will continue to monitor and follow guidance from UIL and TEA with regard to students' participation in fine arts and extracurricular activities.
- Practices, sectionals, and rehearsals, will be conducted following safety protocols provided by guidance from Palestine ISD, UIL, and TEA.
- Concerts/performances will be adjusted based on health and safety guidelines provided by Palestine ISD, UIL, and TEA including, but not limited to, transportation procedures, number of attendees, and the orientation of concerts/performances.
- Bus travel to competitions or games will follow transportation guidelines provided by Palestine ISD, UIL and TEA.
- Fine Arts Independent Contractors, (private lesson teachers, choreographers, etc.) will be allowed to teach on campus facilities and will follow the same protocols as teachers. Independent Contractors can conduct their sessions remotely if agreed upon between individual families and the Independent Contractor. All district guidelines and pricing will continue to be adhered to.

Technology Help

Technology Devices

Palestine ISD recognizes the need to ensure all students have reliable access to adequate technology resources on and off campus in order to fully participate in academic programming. Palestine ISD will ensure every student has access to a device and provide WiFi hotspots as needed. Students and families will be expected to follow applicable guidelines for care and use in order to ensure these public resources are effectively utilized and maintained.

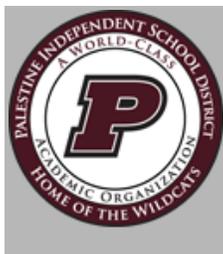

Troubleshooting

Our technology team will provide help with Canvas, Seesaw, Laptops, hotspots, and instructional resources or any classroom questions about technology. Available on the district website are parent/student resource pages with instructional resources, login information, etc.

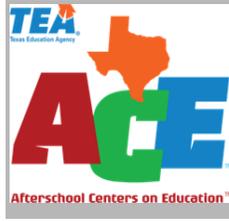

Parents or students may call 903-731-8005 ext 2020 between the hours of 7:30 am and 4:30 pm, Monday through Friday. Onsite technology support is available at the Palestine High School Library Media Center from 7:30-4:30 Monday through Friday.

Facility Rentals & After-School Events

Please contact campus administration if you are interested in renting district facilities.

PALESTINE ISD TACE PROGRAM

Texas afterschool Centers on Education (TACE) provides great resources to maintain afterschool programs to eligible students on five PISD campuses. Campuses include; Palestine High School, Palestine Junior High, A.M. Story Intermediate, Southside Elementary and Northside Primary. Eligible students may attend TACE activities before and after school on Monday-Friday. All TACE staff will be trained in the COVID-19 safety procedures. TEA recommends that after school providers operate in conjunction with the campuses they serve following the guidance they set forth. Any operation of facilities should be done consistently with the Texas Governor's Executive Orders for similar activities. One of the updates for this school year will include parents staying in their vehicles upon arrival to pick up their student. TACE will continue to engage children before and after school by providing safe and fun activities.

Communications Department

Palestine ISD will continue to inform our families and community regularly regarding ongoing planning for the 2021-2022 academic year. The district and campuses will continue to communicate official information using Remind 101, district website, school messenger, local newspaper/ radio and social media.
