

Palestine ISD
On-Line Safety Training

Please follow the instructions below:

CAS Website: <http://www.cas-services.com>

Username: safety@palestineschools.org

Login: safety (case sensitive)

Once at the CAS Website, 3 red boxes will appear to the left of the screen. Click on the "click here" in the top/My CAS box. From there, enter the above information and access the Palestine ISD school page. Hover the mouse over "Training" in the black rectangle across the top of the screen and choose "Online Training" from the dropdown menu. The Online Safety Training page will appear with various courses. To access the course, click on the red link.

The CAS Training page will appear. Each employee who is taking the course will need to get a user name. This is necessary so that there is documentation of taking the course. Click on the blue link "Get a User Name." Complete all requested information and enter Palestine ISD in the District space. It is important to remember the user name as well as the password to log in. It is case sensitive. Once done, a Welcome page will appear with the course title. From there, click on the "Next" button to begin. After the course has been completed, a certificate with the employee's name will be available to print.
